## Montpelier Plantation, Nevis Experience

A fabulous intimate resort in famed Nevis, where the average annual temperature is 79 degrees. This Relais & Chateaux resort is known for having the best cuisine on the island in their three restaurants. They also have a private beach club directly on the calm and pristine Caribbean Sea with sun shelters, pavilion, bar and changing rooms. Many clients who never repeat a resort come back to Montpelier. Most of their guests are well traveled and love to stay in intimate hotels, where the attention to service is extremely personal. The unspoiled island of Nevis has friendly people, no crowds, and no stoplights. It is a sanctuary far away from the stresses of modern life. Eco-tourists will enjoy the stunning natural beauty of the resort and island. For history buffs, visit Charlestown, the Capital, the Horatio Nelson Museum, and The Botanical Gardens.
